

How Circletree Enterprises Buys

We purchase goods and services from suppliers around the world on advertising production, research facilitation, IT, travel and entertainment, and professional services.

Suppliers are appointed following evaluation against assessment criteria, including risk, operational, commercial, and sustainability considerations.

Supplier Expectations

We choose suppliers who share our values and meet our standards for ethical conduct, human rights, workplace standards, and the environment. Our expectations are described in the Circletree Code of Business Conduct for Suppliers.

Supplier Selection Process

We evaluate all potential new suppliers against a set of business requirements before they can become a Circletree supplier. These include assurance of supply, quality, service, cost, innovation, and sustainability. Once selected, suppliers are asked to sign a copy of the Circletree Code of Business Conduct for Suppliers to confirm they will adhere to its principles.

Interested Suppliers

If you are looking to supply Circletree with goods or services, please contact info@circletreeenterprises.com. We check submissions regularly and will respond if we are interested in a detailed discussion.
